

Power, Power, Power!

Iain Gilmour

Verse 1

It's a beautiful day,
Not a cloud to be seen.
Do not burn in the sun,
Instead of red go green.
It's a beautiful day,
For solar energy.
Why let it go to waste?
After all it's free!

Chorus

Get your power, power, power from the Sun (the power, go get the power),
That power, power, power goes on and on (the power, go get the power),
Raise your panels to the sky,
Plug in to the Sun's supply,
Power, power, power from the Sun (go get the power).

Verse 2

Solar energy,
Makes your water boil.
So your power source,
Isn't nasty oil.
Use voltaic cells,
For electricity.
That is clean and safe,
Good for the planet and me.

Chorus

Get your power, power, power from the Sun (the power, go get the power),
That power, power, power goes on and on (the power, go get the power),
Raise your panels to the sky,
Plug in to the Sun's supply,
Power, power, power from the Sun (go get the power).

Bridge

With fossil fuels running out,
And too much CO2 about,
Renewable's the way to go,
Let solar power steal the show!

Chorus

Go get your power, power, power from the Sun (the power, go get the power),
That power, power, power goes on and on (the power, go get the power),
Raise your panels to the sky,
Plug in to the Sun's supply,
Power, power, power,
Power, power, power,
Power, power, power from the Sun.
