

Cheetah

Music and lyrics by Patrick Nicholls

Verse 1

I've got the muscle, I've got the speed,
I've got the power that I need.
You see me stalking, you see me freeze,
You know I'll have you soon with ease.
You're looking nervous, I hear you cry,
You know I've fixed you with my eye.
You'll try to hide, you'll start to run,
But now the chase is really on.

Chorus

A lightning dash across the plain,
The cheetah's sure of his terrain.
He is the swiftest cat,
No-one can argue against that.

Verse 2

I sniff my prey upon the air,
You tread the earth without a care.
As I am springing, I leave the ground,
I travel on without a sound.
My heart is racing, my fur on end,
My whiskers twitch as I move on.
You'll try to hide, you'll start to run,
But now the chase is really on.

Chorus
