

# Clean Air Outside And In

♩ = 130

Music and lyrics by  
Catherine Brentnall

Smoke from fac - tor - ies, en - gine fumes, Poll -  
clean - ing your home, with blea - ches and sprays, Be

- u - tion surr - ounds us, be - ware! —  
sure to choose these care - full - y. —

But ev' - ry - bo - dy ass - umes. It's  
Some can irr - i - tate your air - ways, Buy

on - ly an iss - ue in the op - en air. Well  
 those that are mild, and fra-grance free. Em -

air poll - u - tion can be in-doors too,  
 -issions from com-bus-tion when you're cook-ing tea, Or

Caused by ev' - ry-day things we do. But  
 heat-ing your home can be un-heal - thy. So

once you un-der-stand the rea-sons why, It  
o - pen the win - dow, use a fan, Choose

is - n't too hard to rec-ti - fy. — 2/4 4/4  
smoke-less fuels, where - ev - er you can.

We need to breathe clean air, — out-side and in, —

Clean air, it's time to begin. A few simple changes to

things we do, Will improve the air and keep us healthy too.

When

Damp and mould can make you wheeze, -

But they can be err - ad - i - ca - ted with ease. -

The sec - ret is ven - til - a - tion, - It's all - a - bout

ed - u - ca - tion! - We need to breathe

clean air, — out-side and in, — Clean air, — it's

time to beg - in. — A few sim - ple chan - ges to

things we do, — Will improve the air — and keep us heal - thy too.

Clean

rit. . . . .

air. Clean air.
