

Coming Back To Earth

Patrick Nicholls

Chorus

Millions of miles we've been trav'ling,
Thousands of stars in the sky,
We're going home, coming home.
Look at the Moon it's in shadow,
Look at the Earth it's so bright,
We're going home, coming home.

Verse

Now we're passing through the atmosphere,
And though it's cool in here, it's hot outside!
Straight ahead the shield is burning red,
And we're just tossing and turning in fear!
We've been drifting through the atmosphere,
But now the Earth is near we're going home.
Home, coming home.

Chorus

Part 1

Millions of miles we've been trav'ling,
Thousands of stars in the sky,
Look at the Moon it's in shadow,
Look at the Earth it's so bright,
We're coming home, coming home.
We're coming home, coming home!

Part 2

Home,
Coming home.
We're going home,
Coming home.
We're coming home, coming home.
We're coming home, coming home!
