

Elliptical Orbits

Emily Barden

Verse 1

Deep within our planetary system,
A force is pulling: gravity.
Keeping planets, comets, ast'roids,
And other space debris,
From drifting in infinity.

Chorus

They're spinning around,
Elliptical orbits, oval not round.
Spinning around,
But our feet, they stay firmly on the ground.

Verse 2

And the Moon, he dances round the Earth,
Seems he's always chasing the Sun.
But the Earth, she knows where she goes is,
Determined by the Sun,
That centrally the one.

Chorus

We're spinning around,
Elliptical orbits, oval not round.
Spinning around,
But our feet, they stay firmly on the ground.

(Repeat chorus)
