

# First We Plant The Seed

Simon Roberts

First we plant the seed,  
Give a little water,  
Then we hope the Sun,  
Will begin to shine.  
When the seed is warm,  
It will start to open,  
And the crop will grow,  
We can start again.

And the living seed,  
That we love to nurture,  
Isn't hard to grow,  
Isn't hard to train.  
All you need is sun,  
And the flowing water,  
From the river wide,  
And the drops of rain.

## Part 1

First we plant the seed,  
Give a little water,  
Then we hope the Sun,  
Will begin to shine.  
When the seed is warm,  
It will start to open,  
And the crop will grow,  
We can start again.

## Part 2

First we plant the seed,  
Give a little water,  
Then we hope the Sun,  
Will begin to shine.  
When the seed is warm,  
It will start to open,  
And the crop will grow,  
We can start again.

### Part 1

First we plant the seed,  
Give a little water,  
Then we hope the Sun,  
Will begin to shine.  
When the seed is warm,  
It will start to open,  
And the crop will grow,  
We can start again.  
And the crop will grow,  
We can start again.  
And the crop will grow,  
We can start again.

### Part 2

First we plant the seed,  
Give a little water,  
Then we hope the Sun,  
Will begin to shine.  
When the seed is warm,  
It will start to open,  
And the crop will grow,  
We can start again.  
And the crop will grow,  
We can start again.  
And the crop will grow,  
We can start again.

### Part 3

Flow river flow,  
  
Rain down below,  
  
Sun shine,  
Sun shine,  
Sun shine,  
And grow.  
Shine,  
And grow.  
Shine,  
And grow.
