

# MRS GREN

Ed Walsh

MRS GREN - the features of living things:

M is for movement,  
R's for respiration,  
S is for sensitivity,  
G is for growth,  
R is for reproduction,  
E is for excretion,  
N is for nutrition.

MRS GREN!

## Verse 1

What's that up in the nest?  
Look! White eggs I can see,  
With a chick inside,  
Waiting to be free.  
What's that up in the tree?  
What's that in the sky,  
Soaring so high?  
Using its wings to fly.

## Chorus

In our world there are many creatures, great and small,  
They run and climb and swim and fly, fast and slow.  
Mrs Gren, you give the features to keep the creatures alive,  
Mrs Gren, you help the world survive,  
The world survive.  
The world survive.

## Verse 2

What's that swimming in the sea?  
Using its gills to breathe,  
Fresh or salt water,  
Is its home to be.  
What's that in the coral?  
Its scales match the scene to camouflage,  
And hide easily.

## Chorus

In our world there are many creatures, great and small,  
They run and climb and swim and fly, fast and slow.  
Mrs Gren, you give the features to keep the creatures alive,  
Mrs Gren, you help the world survive.  
The world survive.  
The world survive.

## Verse 3

What's that stalking through the jungle?  
He has to, right away,  
Looking for its prey,  
Survive the next day.  
What's that climbing the trees?  
With retractable claws from its stripy paws,  
Waiting patiently.

## Chorus

## Ending

### Part 1

Swimming in the sea,  
Swimming in the sea,  
Swimming in the sea,  
Swimming in the sea,  
Swimming in the sea,  
Swimming in the sea,  
Swimming in the sea,  
Swimming in the sea,  
Swimming in the sea.

### Part 2

Soaring so high,  
Soaring so high,  
Soaring so high,  
Soaring so high,  
Soaring so high,  
Soaring so high,  
Swimming in the sea.
