

# Rock The Fossil

Stu Brewer

## Verse 1

Dippy the dinosaur was wandering about,  
Minding his own bus'ness when he dropped down to the ground,  
Mud came down on top of him, rocks fell from all around,  
Then thousands of years later there was a fossil to be found.

## Chorus 1

Rock the fossil,  
Ten thousand years of pressure,  
Gonna rock the fossil.  
Rock the fossil,  
Ten thousand years of pressure,  
Gonna rock the fossil.

## Verse 2

Amber the mosquito was resting on a tree,  
Minding her own bus'ness when she felt something sticky,  
It oozed over her body so she couldn't get free,  
Trapped in resin for all time, then found by you and me.

## Chorus 2

Rock the fossil,  
With gloopy orange amber,  
Gonna rock the fossil.  
Rock the fossil,  
With gloopy orange amber,  
Gonna rock the fossil.

### Verse 3

Boney the skeleton had just been laid to rest,  
Underground the water came around his bones and legs,  
It drained away, his bones grew hard, he had been petrified,  
When digging underground there was a fossil there inside.

### Chorus 3

Rock the fossil,  
Petrified to the bone,  
Gonna rock the fossil.  
Rock the fossil,  
Petrified to the bone,  
Gonna rock the fossil.

### Verse 4

Tiny the crustacean laid on the sea bed,  
Got covered in sediment and buried to his head,  
Sinking down below the ground he turned hard into rock,  
Turned up many years later as a fossil time forgot.

### Chorus 4

Rock the fossil,  
Turned hard into stone,  
Gonna rock the fossil.  
Rock the fossil,  
Turned hard into stone,  
Gonna rock the fossil.

(Repeat chorus)
