

# The Pilot

Patrick Nicholls

## Verse 1

We're leaving the ground,  
Soaring up to the clouds,  
As I lift up her nose to the sky.  
Check all the dials,  
I can rest in a while,  
As the plane starts to cruise on her own.  
One more circuit and we'll both head for home  
Watch as we ride through the blue,  
Back to the ground and to you.

## Verse 2

We've flown overseas,  
Over hills caught the breeze,  
Travelled close to where stars and moons lie.  
Next time I will see,  
That you come fly with me,  
And we'll glide with the birds by our side.  
Such a journey, such a wonderful ride.  
Look as we dive through the blue,  
Back to the ground and to you.
