

We've Got The Beat

Stu Brewer

Verse 1

Many songs have been written, about our heart,
Telling tales about love, but that's just the start.
We're here to state the facts and leave nothing out,
About our greatest organ so let's all shout out!

Chorus

We've got the beat, beat, beat,
Keep that rhythm grooving,
We've got the beat, beat, beat,
The pulse is where it's moving,
We've got the beat, beat, beat,
Keep that rhythm grooving,
We've got the beat, beat, beat, beat, beat, beat, beat, beat, beat!

Verse 2

Your heart is a muscle, the hardest working one,
It pumps blood around your body, through your veins.
Sending oxygen and nutrients to places where it's needed,
And taking out bad stuff where it's not.

Verse 3

Before each heart beat happens, your heart fills with blood,
Then the muscle contracts to make the blood flow,
It blows out like a trumpet, with valves keeping the pressure,
To keep the blood flowing to where it needs to go.

Verse 4

Your heart has two ventricles, giving blood to body and lungs, Divided by a wall called the septum,
With the atria collecting blood as it returns to the heart,
And pumping it through arteries and veins.

Bridge

Blood vessels carry oxygen from the air that we breathe,
And circulates it around our body,
Just put your fingers to your neck to feel that pulse beat,
Lub dub, Lub dub, LUB DUB, LUB DUB!
